How Punch To Earn works?

The meme coin arena is leveling up, but none pack a punch like Pepe Punch, introducing the one of a kind Punch-to-Earn game! This revolutionary Play-to-Earn experience brings real knockout utility to \$PEPEP. With a simple connect-and-punch mechanic, Pepe Punch combines meme culture with an action-packed gaming twist that hits harder than ever! Remember that users must hold \$PEPEP tokens, connect their wallet to the website, and start throwing punches to qualify for Punch-to-Earn rewards. To fuel the action, 15% of the total token supply has been reserved exclusively for this in our Punchnomics. It's time to suit up, gloves on, and let your punches do the earning!

Love or hate, Pepe Punch doesn't discriminate!

PunchNomics

The Punchnomics of \$PEPEP are crafted to empower long-term hodlers and fuel sustainable growth for the Punch Army community. The \$PEPEP token allocation is designed to deliver knockout benefits to loyal community members while supporting the broader ecosystem. From a robust budget for Marketing, staking rewards, and community-driven initiatives, PunchNomics ensures that every punch packs a purpose. With plentiful liquidity for seamless trading and incentives for holders, \$PEPEP is built to thrive in and out of the meme ring.

Total supply: 10 Billion \$PEPEP

- **Presale (46.5%):** A chunky stack for the early Frogs
- **Staking Rewards (20%):** Fortune favors the long-term hodlers
- **Community Rewards (15%):** Save your tears but don't save your punches for another day.
- **Marketing (10%):** Pulling the hardest punch requires the largest crowd.
- **Liquidity (8.5%):** Chunky liquidity pools to keep the punches flowing.

The powerhouse behind the
\$PEPEP Power Punch.

Staking System

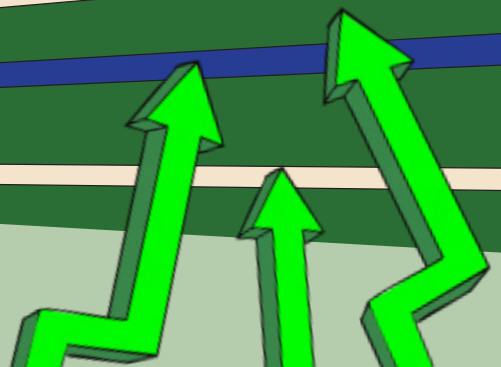

Pepe Punch introduces a dynamic staking system to reward early adopters and champion long-term holders. During the presale phase, \$PEPEP buyers have the exclusive opportunity to stake their tokens right away, unlocking power-packed Annual Percentage Yield (APY) rewards. The earlier you stake, the harder your rewards punch, offering the highest APY (51%) for the earliest adopters. \$PEPEP holders can now enjoy passive rewards through our staking facility. By vesting your tokens for at least 7 days, you unlock steady earnings while contributing to the ecosystem. And please be cautious that unstaking early will result in burning your entire staked amount, so proceed with caution!

This system not only rewards loyal hodlers but also reduces the total token supply, increasing the value of \$PEPEP over time. Stake, earn, and burn - it's a knockout strategy for the Pepe Punch Army!

How Staking Works:

More Stake, More Earned: Staking rewards fluctuate based on the number of participants and your share of the pool. The earlier you stake and the more you contribute, the bigger your slice of the rewards.

Your Stake, Your Share: 20% of the total \$PEPEP token supply is allocated to staking rewards, ensuring long-term benefits while keeping Punchnomics sustainable. Stake early. Stake big. Secure your spot in the Pepe Punch Army and let your loyalty earn you the rewards you deserve.

\$PEPEP Burn Meter

\$PEPEP Burn Meter comes in two impactful forms to ensure a deflationary supply and add value to the Punch Army:

1. Punch Milestone:

Every time the PunchMeter reaches a set milestone: 1M, 10M, 30M, 100M,...we burn a corresponding amount of \$PEPEP tokens. These milestone burns celebrate community engagement and keep the punches packing more value. Let's punch our way to a CTO future!

2. Early Unstake:

Users who stake \$PEPEP must vest their tokens for a minimum of 7 days. Those who choose to withdraw early will burn the balance of tokens that are staked, contributing directly to our burn campaign and further reducing the total supply.

With each burn, the supply shrinks, the community thrives, and \$PEPEP punches harder than ever!
